Positive: Professionalism, Quality, Responsiveness, Value

I had a positive experience with these estate agents, they were very supportive during a long period of waiting and uncertainty. Thanks a lot and a special mention to Sharon for making the process a lot easier and making sure everything was going well. Definitely would recommend to anyone looking to move.

El Grupo Statom es una empresa independiente, versátil y con experiencia en el sector de la construcción. Proporcionando soluciones especializadas para la restauración, obras de tierra y estructuras de hormigón en todo el Reino Unido.

WE ARE INVESTING

We ARE invested in industry-leading, efficient, and state of the art equipment

Statom Group has its own Plant and Machinery division, fully equipped with all of the latest innovations in the construction sector, enabling all of our clients to benefit from our latest investments, on all their projects.

Statom Plant division manages anything from small tools to excavators/formwork & falsework and every item is part of a stringent vetting process, ensuring it meets our high standards and requirements.

Our ongoing investment programme means that all major items of plant are less than three years old and are compliant with safety and environmental legislation at all times.

After a recent £6 million investment into new machinery and formwork and falsework equipment, Statom Plant now holds a large stock of brand new Kobelco Excavators ranging from 3 tonne to 30 tonne, which are all stage 5 compliant to EU Emissions Standards.

Other core features are lower fuel consumption, energy efficiency and onboard GPS software.

These new machines also include a revolutionary noise reduction system which absorbs the sound, making our machines quieter than other excavators and well suited to projects in built-up, urban areas.

Statom Plant also has a large stock of Alshore falsework in excess of 10,000m², 5,500m² of Peri Trio and Domino panels and in excess of 8,000m² of Sky Deck.

So, just who do we help?

Homeowners

Protect the warmth of your home with our award-winning BoilerCare plans.

A tiny extra investment today, for peace of mind when you need it. We understand the vital importance of having a warm home and hot water available when you need it. Our engineers are here 365 days a year to help you maintain your heating system so it runs smoothly and cost efficiently.

Landlords

Neighbourhood Boiler and Control Heating Cover for Landlords. Put your rental property portfolio in the hands of a first-class local team of Gas Safe registered heating specialists and plumbing experts that work to the highest standards. Our simple Landlord Care Plans deliver peace of mind and save you time and money.

UKBC will ensure that the boiler and heating system in your rental property will operate smoothly and efficiently, cause the minimum amount of trouble and expense, keep tenants happy and meet the stringent safety standards demanded by the law.

Landlord Gas Safety Inspection and CP12 Certificate

All UKBC engineers are registered with Gas Safe, the UK's official body to protect the public against unqualified engineers and dangerous gas work.

Inclusive fixed price CP12 service from UKBC

For a price that most of our competitors will charge just to inspect the boiler, we carry out a full manufacturer service to the boiler, plus a full inspection of an unlimited number of appliances at a rental property.

"Rudely fixed and properly serviced gas appliances can cause gas leaks, fire, explosions and carbon monoxide poisoning. Every year thousands of people across the UK are diagnosed with carbon monoxide poisoning. It's a highly poisonous gas. You can't see it, taste it or smell it, but it can kill quickly with no warning." - Gas Safe

Landlords are legally responsible for the safety of their tenants. The law requires that you maintain all gas pipework, flues and appliances so they are in a safe condition. It's your legal duty to ensure an annual gas safety inspection is carried out on each appliance and flue. You must also keep a record of each safety inspection and make sure your tenants are kept informed about their responsibilities when they are living in your property.

We take the annual CP12 Gas Safety Inspection and Certification very seriously indeed. Our annual safety inspections are carried out to the highest standard by our Gas Safe Registered engineers and we make sure that you have the certification in place to keep you on the right side of the law, and your tenants healthy and safe.

If required, we will liaise directly with the tenant on your behalf to arrange the annual inspection and if needed, we will quote for any required remedial work that must be undertaken to ensure you comply with the law.

Landlord Gas Safety Inspection

£70.00 + VAT

Gas Safety Inspection and CP12 Certificate is a single rental property. Maintenance and Annual Safety Inspection to Boiler and Heating System. Manufacturer Service to the boiler. Parts and labour. Full inspection of unlimited number of appliances at property. Friendly, local Gas Safe registered engineers.

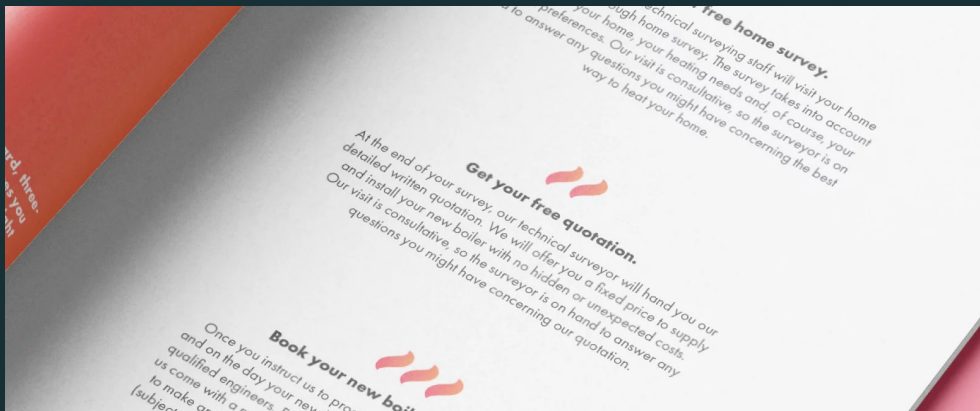

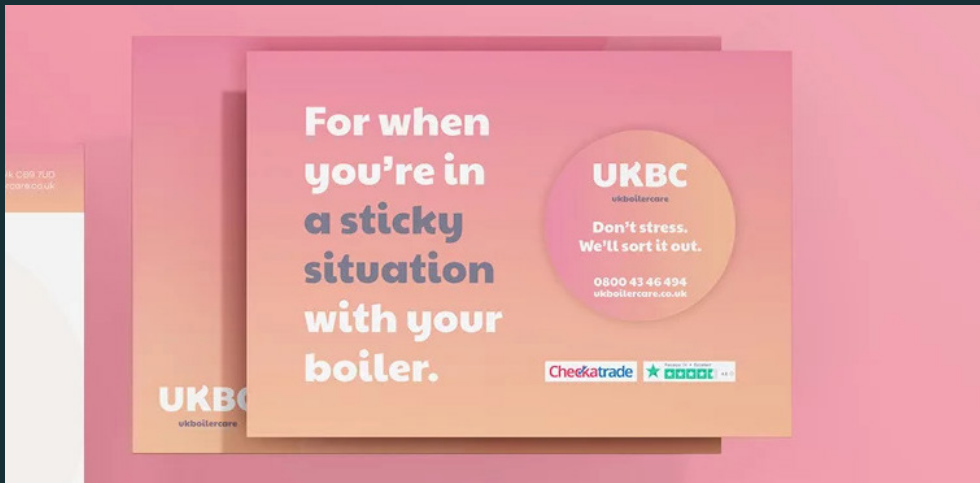

[Get in touch](#)

Letting Agents

General and Managed Services for Letting Agents from a first-class local team of Gas Safe registered heating specialists and plumbing experts that work to the highest standards.

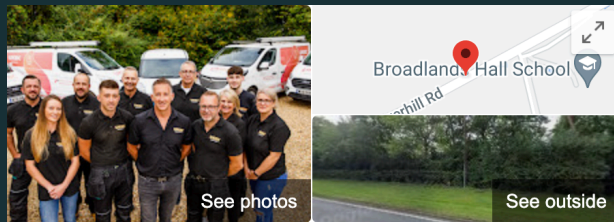

Offer your landlord clients the highest standards of service.

UKBC has an excellent track record of working alongside letting agents. We provide the full range of our services to letting agents in Hertfordshire, Essex, Cambridgeshire, Bedfordshire and Suffolk. Our client range from single houses locally from

“ Muy competentes, puntuales y nos arreglaron la caldera por un excelente precio. ”

The background of the image is a dark, teal-colored wall with a faint grid pattern. In the lower-left corner, there are silhouettes of two people standing and looking towards the right. In the lower-right corner, there is a silhouette of a person standing and talking on a mobile phone. The text is presented in four pink, parallelogram-shaped boxes with white text.
